Employee benefit packages
for global businesses.

GET STARTED

A global partner to keep your business moving

Our packages are designed to get your employees back to health, back to work, and back to performing at their best for your business.

When you go further for your people, they go further for you

- We help your people stay healthy, reassured and supported every day – so they can feel confident about taking their career further with you.
- We're the global healthcare specialists for AXA, a company that businesses have relied on for over 60 years.[1]
- We handle over 700,000 claims per year,[2] and provide access to over 2 million healthcare facilities in 197 countries and territories.[3]
- Wherever your business goes, whatever your next steps, we'll be at your side. It's what we do every day.

Our benefit packages offer effective global healthcare solutions to suit your business

All plans for your employees include:

- cover for hospital treatment – avoiding big bills when they need them least
- access to international specialists and expert care
- flexible cover that travels with your employees.

Introduction

How we can help you

How we support businesses like yours

Next steps

In uncertain times, you can always rely on us

We’re pioneering new ways of doing business to stay ahead in an unpredictable world.

Flexible thinking to keep you one step ahead

We’re making the most of our role as AXA’s global healthcare specialists.
Here’s how we can benefit your company:

1 We draw on AXA’s resources around the world	We’re uniquely placed to bring together products, expertise and resources from AXA companies right around the world. You’ll have the reassurance of dealing with the same trusted global brand and the same consistent, professional team.
2 We can also arrange packages using products from different insurers	We’ll put together packages that suit your business needs when employees are sent on international assignment. We’ll combine our own global expertise with the local knowledge of in-country experts, so you get the best of both worlds.
3 You’ll deal with the same experienced global team	Our highly knowledgeable customer service team will make sure your employees continue to receive seamless support 24/7.

How we support businesses like yours

With our Global Health Plans, you can be confident that your people can access quality healthcare wherever they are in the world.

Built for your business

Our experts will help you find the right solution to suit your business:

- We can support any number of employees, in different locations, of different employment types, including commuters and assignees.
- We offer everything from simple, off-the-shelf plans to fully bespoke packages tailored to your specifications.[4]
- We can often match the benefits you receive from your current insurer.[4]

Dedicated account management

Your dedicated account management team will help you manage your plan and answer all your questions. You'll be able to count on the same consistent service every day, from a team that knows your business.

If you have a larger group to cover, your account manager will also be happy to help you show the value of your benefits package to your stakeholders.

They'll keep you updated on how your employees are using their benefits, arrange regular email campaigns to engage your employees, and share regular performance reports.

Keeping up with healthcare regulations

International healthcare regulations are complex – and they change frequently, often with little notice.

We harness AXA's unique in-country expertise to help make sure your package meets your needs. That includes arranging specialised plans in places like the Gulf, Saudi Arabia, the Netherlands, Switzerland and Australia.[4] We can set these up in any combination to suit your needs.

Providing trusted cover

We've built an extensive global network of medical providers. This means we can usually pay directly for treatment, so your employees don't have to wait to be reimbursed.

Vigilant on costs

You're careful about where your money goes: we are too.

We keep a close eye on costs to make sure that your benefits package is a worthwhile investment – balancing your need to keep your employees in good health with your budget.

Our fraud investigation and claims risk management teams make sure we're paying real claims, reviewing claim costs and checking that providers are charging what they should.

Next steps

The right support for your employees - peace of mind for you

With one of the world's leading insurers[3] at your side, you can rest assured that your people have access to the right support whenever they need it.

Support for your employees

Access to our global network

We provide access to over 2 million healthcare facilities in 197 countries and territories.[3] We can often pay for treatment directly too.

Getting them where they need to be

For ultimate reassurance during an emergency, our evacuation and repatriation service will get them to the care they need.

Extra support for cancer

If they're diagnosed with cancer, their dedicated case manager will help support with the paperwork, gather reports and speak to hospitals, making life a little easier during a difficult time.

Our Virtual Care from AXA[5] offering includes:

Virtual Doctor[6]

Speak to a doctor from anywhere in the world

The Virtual Doctor service allows your people to speak to a doctor by phone or video chat from anywhere in the world. With no need to take time off or sit in waiting rooms, it works around their busy schedules, offering hassle-free healthcare at their fingertips.

Mind Health[7]

Expert mental health support worldwide

The Mind Health service connects your people with the professionals who care. They can self-refer for confidential mind health support from a fully qualified psychologist for up to six sessions – wherever they are, whenever they're ready.

Second Medical Opinion[8]

The confidence your employees need to make their healthcare choices

The Second Medical Opinion service offers your people an independent and impartial review of their diagnosis or treatment plan from a world-leading specialist, giving them the confidence and reassurance they need to take control of their next steps.
